## 5) Old Business

- **NRI** final Review – LCCD provided Salisbury Township with five (5) hard copies of the Final version of the Natural Resource Inventory. I have already provided a copy to Glenn Miller for review and would like to share the remaining copies with the EAC members to review and comment. Once the final review is accomplished the next item we need to address is the formal recommendation to the Board of Commissioners. We would also need to coordinate with LCCD to provide a presentation of the final product to the BOC. This should be addressed at our meeting.
- Since there was some interest in understanding the issue of Marcellus Shale, I'm including this website for your review <http://www.marcellusfacts.org/>.

## 6) New Business

- a) Creation of the Standard Operating Procedures for content for the STEAC web information to be posted on the township website.
- b) Who will be responsible for choosing the topics to be addressed. Once the article is written the EAC group is suggested to collectively review it prior to placement on the website.
- c) Who will be responsible for the updates to the website – monthly basis.
- d) Some suggestions included the Composting project and locations; the Walking Purchase Park history and importance or value of the park; perhaps we could reference other parks and give some information on those; plus we need to address the topics we would like to share.
- e) *Suggest to review other municipalities EAC information to help guide Salisbury Township.*
