- 1) *Bicycle (including mountain bikes). All bicycle riders shall obey traffic signs, laws, and control devices regulating the operation, stopping, or parking of vehicles. Bicycle riding will be governed further by safe riding practices and consideration for use of park areas by others. Where special parking provisions have been made for bicycles, parking will be limited to that area. Bicycle riding shall be prohibited: on playgrounds, on maintained park areas, including grass (except as authorized and permitted by the Township), in areas of environmental sensitivity, in special display areas, in pavilion or other monument type structures, in any area where other activities are in progress, or in any area where specifically restricted. Bicycle riding shall only be allowed on the trail system.*
- 2) *Trail Use and Hours of Operations.*
 - a) *The Walking Purchase Park Multi-Use Trail is designated for the enjoyment of all residents and will be open for appropriate use as posted by the Township. Bicycle use is exclusively limited to designated single-track trails from dawn until dusk (or 9/10 p.m. in the fall and winter months). Bicyclists are required to use an appropriate frontal light throughout their entire visit in the park after dusk.*
 - b) *Do not cut switchbacks or create new trails. Stunt building or any other trail manipulation is prohibited. Possession of handsaws, chainsaws, loppers, shovels, rakes, or any other trail clearing or building tool or material is prohibited, except for permitted/approved uses.*
 - c) *Visitors assume all risks and must be reasonably prepared and equipped, take reasonable precautions against endangering themselves or others, and must wear appropriate footwear and clothing.*
 - d) *No person may deface, paint, damage, mutilate, or vandalize any natural or cultural object, or any sign or structure within the Walking Purchase Park conservation area. Possession of paint or marking materials, or tampering with, altering, or removing any sign, marker, or structure, is prohibited. Driving nails or permanently installing any object is prohibited.*
 - e) *Visitors are responsible for carrying out all of their refuse (including all wrappers, packaging, bottles, cans, cigarette butts, pet waste, etc.) and are encouraged to reduce, reuse, and recycle these items when possible.*
 - f) *All wildlife, plant life, artifacts and any other natural or man-made features are protected and may not be disturbed or removed (unless regulated with permit). Harassment of wildlife is illegal in Pennsylvania; do not approach, follow or feed wildlife. Releasing or introducing any animal is prohibited. Please leave rocks, wildflowers, and other plants or natural objects as you find them. Do not disturb wetlands or vernal pools. Metal detectors are not allowed.*
 - g) *Registration of Bicycles. In order to compile a list of potential bicycle users of the multi-use trail, the Township shall institute a registration program that will allow emergency personnel to assemble pertinent information on the users of the trail. The Township shall not charge a fee for this registration. The Township shall work towards the implementation of an emergency evacuation plan to aid emergency personnel in cases of emergency rescues. The owner(s) of the bicycle(s) shall also be required to sign a waiver of liability releasing the Township and other co-owners of the park from any liability associated with the use of its trails at Walking Purchase Park for any personal injury, loss, death or property damage, including attorney's fee.*

- 3) *Rules of the Trail. The Township adopts the following rules of the trail, formulated by IMBA, the International Mountain Bicycling Association. These rules are recognized around the world as the standard code of conduct for mountain bikers. IBMA's mission is to promote mountain bicycling that is environmentally sound and socially responsible:*
- a) Ride on Open Trails Only. Respect trail and road closures. Ask if uncertain; avoid trespassing on private land; obtain permits or other authorization as may be required. The way you ride will influence trail management decisions and policies.*
 - b) Leave No Trace. Be sensitive to the dirt beneath you. Recognize different types of soils and trail construction; practice low-impact cycling. Wet and muddy trails are more vulnerable to damage. When the trail bed is soft, consider other riding options. This also means staying on existing trails and not creating new ones. Don't cut switchbacks. Be sure to pack out at least as much as you pack in.*
 - c) Control Your Bicycle! Inattention for even a second can cause problems. Obey all bicycle speed regulations and recommendations.*
 - d) Always Yield Trail. Let your fellow trail users know you're coming. A friendly greeting or bell is considerate and works well; don't startle others. Show your respect when passing by slowing to a walking pace or even stopping. Anticipate other trail users around corners or in blind spots. Yielding means slow down, establish communication, be prepared to stop if necessary and pass safely.*
 - e) Never Scare Animals. All animals are startled by an unannounced approach, a sudden movement, or a loud noise. This can be dangerous for you, others, and the animals. Give animals extra room and time to adjust to you. When passing horses use special care and follow directions from the horseback riders; ask if uncertain. Running cattle and disturbing wildlife is a serious offense. Leave gates as you found them, or as marked.*
 - f) Plan Ahead. Know your equipment, your ability, and the area in which you are riding and prepare accordingly. Be self-sufficient at all times, keep your equipment in good repair, and carry necessary supplies for changes in weather or other conditions. A well-executed trip is a satisfaction to you and not a burden to others. Always wear a helmet and appropriate safety gear.*
 - g) Gear Up. Always wear a helmet and any other appropriate safety equipment for the riding conditions (cell phones, compass, etc.).*
 - h) Never Ride Beyond Your Abilities. There is no shame in walking sections of the trail you don't feel confident enough to ride, and don't let anybody tell you otherwise.*
 - i) Use Appropriate Equipment for the Terrain. Some bikes are better for different situations. Just because you can see tire tracks, doesn't mean you can ride it with your bike.*
 - j) Keep Your Speed in Check. Always keep your speed at a level that will allow you to adjust to any unforeseen obstacles or changes in trail conditions.*
 - k) Know the Trail. Never push the limits on a trail you are not familiar with. You need to get to know the trail you are riding at slower speeds before you can ride it like the trails you're used to.*
 - l) Slow down for Blind Corners. You never know what or who is around a corner*

when you can't see past it.

- m) Stop and Look. Stop and look at sections of the trail that look like they may pose a challenge before you ride them.*
- n) Plan on the Crash. Always look at the consequences of crashing in a particular section or on a particular stunt before trying to ride through it. Sometimes a section can look easy to ride but can have deadly consequences to a crash.*
- o) Start Small, Go Big. Work your way up to obstacles and stunts. Find ways to practice moves in less difficult and dangerous situations or at lower speeds before committing yourself to something more dangerous.*
- p) Play it Smart. If you think what you are doing is not the smartest, you are probably right. Think about what you are doing and trust your instincts.*

§ 16-113. Penalties.

Any person or persons who violate any provision or prohibition of this Part 1 shall be guilty of a summary offense and, upon conviction thereof, shall be sentenced to pay a fine of not more than \$1,000, together with costs of prosecution, and in default of payment thereof to undergo imprisonment for not more than 90 days.

§ 16-303. Penalty.

ARTICLE III. If any provision, sentence, clause, section, or part of this Ordinance is for any reason found to be unconstitutional, illegal or invalid, such unconstitutionality, illegality, or invalidity shall not affect or impair any of the remaining provisions of this Ordinance. It is hereby declared as the intent of the Township that this Ordinance would have been adopted had such stricken provisions not been included herein.

ARTICLE IV. All other Ordinances or parts thereof which are contradictory with the provisions hereof, are repealed to the extent of such inconsistencies.

ARTICLE V. This Ordinance shall become effective immediately after its enactment.
